Abbottabad, KPK, Pakistan | +92 319 5224652 | laibajamil.312@gmail.com | github.com/LaibaaJamil | linkedin.com/in/laibajamil312

EDUCATION

Abbottabad University of Science and Technology (AUST)

2022 - 2026

Bachelor of Science in Software Engineering | GPA: 3.66/4.00

Relevant Coursework: Web Technologies, Mobile Development, Databases, Software Engineering

Rose Valley Public School and College

Completed: 2022

Higher Secondary Education | Specialized in Pre-Medical Sciences

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), Dart, HTML5, CSS3, PHP, SQL

Frontend: React.js, Next.js, Flutter, Bootstrap, Tailwind CSS, PWA

Backend: Node.js, Express.js, REST API, Socket.io, JWT

Databases & Tools: MongoDB, MySQL, Mongoose ODM, Git, GitHub, Postman, Vercel, Railway, VS Code

EXPERIENCE

CodeAlpha

August 2026 - Present

Full-Stack Development Intern | Remote

- Developed and deployed two production-quality full-stack web applications (NexaCart, SocialHub).
- Implemented React frontends connected to Node.js/Express REST APIs with MongoDB persistence.
- Designed and built secure user authentication systems using JWT tokens and managed cloud deployment.

Ayub Teaching Hospital

July 2025 - August 2025

IT Department Intern | Abbottabad

- Maintained the live hospital website in an operational IT environment using HTML, CSS, and JavaScript.
- Supported backend development with PHP (CodeIgniter) and MySQL database management.
- Assisted with website content management, technical troubleshooting, and implementation of updates.

PROJECTS

NexaCart - Full-Stack E-Commerce Marketplace

2026

- Built complete marketplace platform with React frontend, Node.js backend, and MongoDB persistence.
- Deployed responsive frontend and API on Vercel; packaged as installable Android PWA with offline capabilities.
- GitHub: github.com/LaibaaJamil/nexacart-marketplace | Live: nexacart-marketplace.vercel.app

SocialHub - Professional Community Platform

2026

- Built full-stack social platform with 1000+ lines of production code, implementing authentication and feeds.
- Deployed on Vercel with responsive mobile-first design, featuring posts, reactions, comments, and follow system.
- GitHub: github.com/LaibaaJamil/CodeAlpha_SocialMediaApp | Live: code-alpha-social-media-app-ten.vercel.app

Hum-Raah - NGO Coordination & Civic Reporting Platform

2026

- Built cross-platform application in Flutter for iOS, Android, and web with Node.js/MongoDB and Socket.io.
- Implemented GIS-based mapping and role-based access control; deployed backend on Railway.
- GitHub: github.com/LaibaaJamil/humraah-backend-public | API: humraah-backend.railway.app

Shadinama - Wedding E-Invitation Platform

2026

- Developing full-stack platform with Next.js and Node.js, featuring a dynamic template generator and admin studio.
- GitHub: github.com/LaibaaJamil/shadinama

CERTIFICATIONS & TRAINING

- Full-Stack Development Bootcamp — CodeAlpha (2026)
- IT Support Training — Ayub Teaching Hospital (2025)
