- Urdu

LAIBA JAMIL

BS Software Engineering Graduate (2026) | Flutter & Full-Stack Developer

PROFILE

BS Software Engineering graduate (2026) with hands-on experience building cross-platform and full-stack applications using Flutter, Next.js, Node.js/Express, MongoDB Atlas, and Socket.io. Built an NGO coordination and civic-reporting platform and a digital wedding-invitation web app, with a focus on clean, user-friendly, deployable software.

INTERNSHIP EXPERIENCE

IT Department Intern - Ayub Teaching Hospital Jul 2025 - Aug 2025
Medical Teaching Institution, Ayub Teaching Hospital, Abbottabad

- Completed a 4-week internship in the IT Department as part of the BS Software Engineering program.
- Assisted the IT Department with day-to-day technical support and gained exposure to hospital IT operations in a clinical environment.

PROJECTS

Hum-Raah - NGO Coordination & Civic Reporting App 2025 - 2026

- Developed a Flutter mobile and web application for NGO coordination and civic-issue reporting.
- Built REST APIs with Node.js/Express and MongoDB Atlas; integrated Socket.io for real-time updates.
- Implemented role-based dashboards, GIS map-pin visibility, and a citizen-report verification workflow.
- Deployed the backend on Railway and resolved Flutter Web compatibility issues.

Shadinama - Wedding Stationery & Digital Invitation Platform 2026

- Built a full-stack wedding stationery and digital-invitation platform using Next.js, Node.js/Express, and MongoDB Atlas.
- Developed a customizable e-invitation generator with 7 themes and 6 animation styles.
- Designed an admin-only Design Studio for managing original SVG-based invitation assets.

ACADEMIC PROJECTS

- Hospital Management System - desktop application built using C++.
- ATM Simulation Project - developed using Java.
- Bank Management System - record and transaction management application.
